

SENATOR SAVAGE: Question is shall the committee amendments be adopted. All those in favor vote aye, those opposed vote no. Please vote.

CLERK: 27 ayes, 0 nays and 22 not voting.

SENATOR SAVAGE: The Committee Amendments are adopted. Are we treating this as a Resolution or as a bill? Can we appropriate money.....

SENATOR MARVEL: No, this is strictly a resolution according to the law that has to approve. We don't appropriate, we simply approve. This is a formality that the legislature goes through when we are in session, or the executive board goes through when we are not in session. The motion is to adopt the amendment as amended which approves these amounts.

SENATOR SAVAGE: Any discussion? Senator Nichol.

SENATOR NICHOL: Mr. Chairman, members of the Legislature. I notice that we have two appropriations here for fire marshall's recommendations or something of that nature. I want to know if we have looked into this. I understand that we are changing Fire Marshall's again, and through the years I think that we have all experienced some ridiculous demands by Fire Marshall's across the state. I wonder if Senator Marvel would talk about this and tell us who looked at these situations to see if they are necessary. Secondly if the new Fire Marshall is in agreement with these since these apparently were made some time ago. I don't know how long ago, but I would like to know a little bit about that to see who has looked at those situations and if it is a sensible request.

SENATOR SAVAGE: Do you wish to respond Senator Marvel?

SENATOR MARVEL: I can't. I am not in a position to give him that detailed information this morning. I can give it to him tomorrow. I'll get it for you. I agree with you. Let me put it this way, that everytime that we get a new Fire Marshall we have new rules and regulations. The fact of the matter is that we have them in the midst of a Fire Marshall's regime to the place that the first expenditures in capital construction have to do with fire safety improvements. Now, I don't think that anybody objects to fire safety improvements. I think that the objection is that when you get approval and then certain individuals of the Fire Marshalls office change their minds, then this just adds to additional expense. Specifically in this area I can get you the information by tomorrow.

SENATOR NICHOL: But we are voting on it today, is that right?

SENATOR MARVEL: If you want to make a motion to hold it over.... I ask unanimous consent, since we are running out of time, that we hold this over until tomorrow and I'll get Senator Nichol the information and then we will proceed. Is that alright Mr. Chairman?

SENATOR SAVAGE: Are there any objections? Hearing none, the resolution is postponed until tomorrow. I recognize the Speaker.
